How to complete a COMMUNITY REFERRAL TO HHUNY

This is a quick cheat sheet to ensure referral sources complete a more accurate Health Home Community Referral. Incorrect or incomplete Health Home referrals impede the processing of the referral, which means a delay in services for the consumer.

When checking boxes for Eligibility and Risk Factors, please provide detailed information. This will give the HHUNY Community Referral Coordinator the information needed to make an appropriate assignment.

Here is a brief check list for completing a HHUNY Community Referral.

- Please make sure the Medicaid CIN Number is on the referral (It is two letters, followed by five numbers, and one letter). **Example: (AA12345A).**
- Eligibility Category Information: Make sure to specify the diagnosis.
 - **Example: Serious mental illness — 296.8 Bipolar Disorder NOS**
 - **Example: Other Chronic Conditions — COPD**
 - **If 2 in category C, must provide information on BOTH; Substance Use Disorders included.**
- Risk Factor – Give some detail information concerning member's risk factors:
Example: Member is at risk for hospitalization due to non-adherence with medication.
- No Referral can be processed without the member's consent form, which is included in the referral. **Referral will not be processed without a consent; per DOH, this can include noted verbal consent. CONSENT TO DISCLOSURE OF HEALTH INFORMATION from HHUNY referral is needed.**
- If you are an agency assisting a member in completing a **self-referral**, make sure to list your contact information along with the member's information as the Community Referral Coordinator may not be able to reach the member, which delays the referral process.
- If referrals are coming from an inpatient unit please provide:
 - Name of hospital and contact information for the Discharge Planner.
 - Admission and planned discharge date.
- Reason for admission
